

LITTLE AVIATORS PRE-SCHOOL

LEARN. TO FLY

The Kingsley Way

Early Years Provision at The Kingsley School for girls and boys aged 3-5

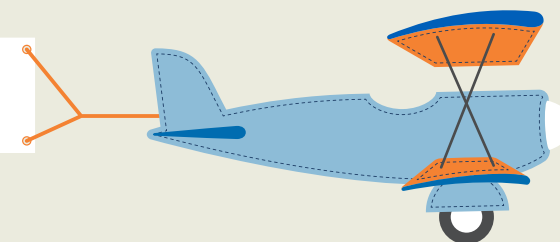

FASTEN YOUR SEATBELT

Become a Little Aviator and learn to fly...

Our youngest pupils embark on their very own flightpath of adventure and discovery in a safe and secure environment that nurtures confidence and creativity. These early experiences lay the foundations for the development of a wide range of skills and a genuine love of learning, preparing them for life in our Reception class and beyond. Little Aviators can fly as high as their imaginations will take them – the sky really is the limit!

READY FOR
TAKE-OFF

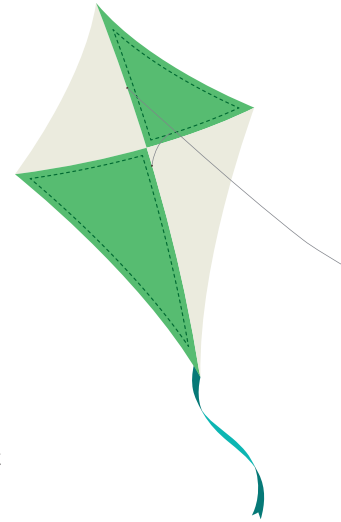

Watch their learning take off...

Our team of dedicated staff have the time and expertise to tailor lessons and activities to individual learning styles and needs. The result? They become early readers and writers and leave Little Aviators with their phonics and basic numeracy skills firmly embedded. Just as importantly, they learn to express their ideas, feelings and creativity through art, music, movement, dance and role-play.

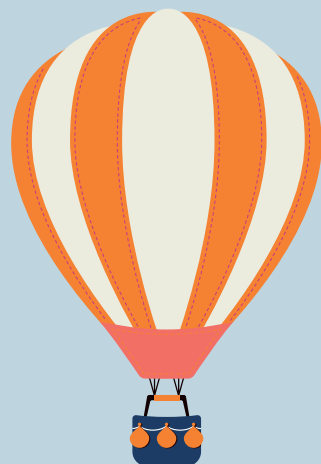

Time flies when you're having fun...

We always strive to make the acquisition of core knowledge and skills engaging and fun. For example, Fridays equal Forest School. There's no better place to bring topics to life than in the great outdoors! We also build dens and fire pits (*with marshmallows flown in for special occasions*), climb trees, hunt for mini-beasts and much more, all under the close supervision of our qualified Forest School Leader.

FLYING LESSONS

REACH FOR THE SKY

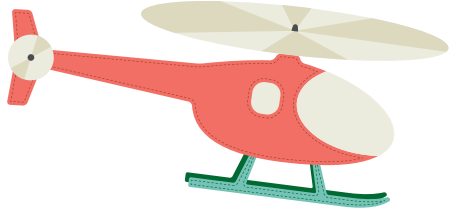

With so many opportunities, reaching high is easy...

Our Innovation Station provides the perfect launchpad for discovery. Children are given early exposure to a whole host of STEM activities, from engineering projects and science experiments to robotics and coding. Our Little Aviators also spend time in the Cookery Corner learning to make basic recipes and healthy food choices.

Subjects such as PE, drama and music are taught by specialist teachers. Co-ordination, control and movement are developed in a fun and inclusive way, and the principles of health and fitness established from an early age. With weekly swimming lessons, our Little Aviators master this important skill before they are five. As they progress through the Prep School, they have the opportunity to take part in swimming galas and team sports, and compete in a variety of fixtures.

It's well-known that the best time to learn a second language is when you're learning the first. Regardless of whether you foresee your child using Spanish in the future, they will begin learning the language from when they join us as the cognitive benefits are unparalleled. ¿Puedo tomar helado, por favor?

DESTINATION: THE KINGSLEY SCHOOL

Little Aviators benefit from being part of our kind and caring through-school community, with a wealth of opportunities for shared learning experiences and extra-curricular activities. Spending time with older pupils broadens their horizons and prepares them for the next stage of their Kingsley journey... and what an exciting journey it's going to be!

Become part of a
caring and close-knit
